Developer tools · AI workflows · Student communities

RS

PROFILE

B.Tech Computer Science student specializing in Cyber Security at IARE, Hyderabad. I build developer tools, explore AI-assisted workflows, and organize developer gatherings. Open to engineering roles, product collaborations, and community opportunities.

SELECTED WORK

KiroPad

A mobile remote for Kiro with QR pairing and a desktop bridge. Project author and maintainer; public history includes Google Labs Jules bot contributions. v2.0.0 has macOS and Android downloads.

https://github.com/RamSuryaCH/Kiropad

CommitCanvas

A live contribution-grid art editor with drawing, lettering, undo, and Python/Node.js script export. Project author, credited in the public repository.

https://commitcanvas.vercel.app

Article Agent

An open writing toolkit with local Python prose-cleaning tools and Claude workflows. Project author, credited in the repository and plugin manifest.
